Guidance

Please refer to Parts [45-2060] to [45-2081] of the Land Title Practice Manual for guidance on completion and execution of this form and refer to Part 45 generally for further guidance on titles instruments involving Community Titles Schemes. Some brief guidance on the completion of Item 3 has been included below for the quick reference of those who are already familiar with executions of titles instruments by a Body Corporate.

Signer Authority Guidance:

Representative of a Registered Owner means a natural person (individual) whose name is recorded on the body corporate's roll as the representative of the registered owner of a lot that is included in the scheme – Refer to Part [45-2070-1] of the Land Title Practice Manual.

Registered Owner – Individual means a natural person (individual) who is the registered owner of a lot that is included in the scheme. If a lot is owned by 2 or more people, it is acceptable for only one of the registered owners to sign the relevant certificate – Refer to Part [45-2070-2] of the Land Title Practice Manual.

Registered Owner - Corporation means the officeholder of the position of 'Director' or 'Secretary' for the corporate entity that is the registered owner of the lot. It is acceptable for only one office holder (Director or Secretary) of a Corporate Entity to execute on behalf of the Corporation in this instance, as by doing so they confirm they are signing as Agent on behalf of the Corporation and hold the requisite authority to do so – Refer to Part [45-2070-4] of the Land Title Practice Manual. The name and A.C.N of the corporation must be included in the 'Entity' field.

Body Corporate Manager under Chapter 3, Part 5 means a Body Corporate Manager appointed under Chapter 3, Part 5 of the respective Module Regulations to perform the functions of the body corporate committee. This is applicable only to Standard Module, Small Schemes Module and Accommodation Modules. This type of body corporate manager should not be confused with the more common type of body corporate manager that assists with the administration of the body corporate – Refer to Part [45-2070-5] of the Land Title Practice Manual.

Person specified as Signatory in the Body Corporate resolution authorising the transaction means the person identified (by name) and specifically authorised in the body corporate resolution, as the person who should execute the instrument. By signing in this way, the person signing confirms that they are one and the same person as is specified in the resolution to sign the instrument and that they have the authority to sign it. A copy of the resolution is not required to be deposited with this form to confirm this authority – Refer to Part [45-2060] of the Land Title Practice Manual.

Constructing Authority - Authorised Officer means the officer for the Constructing Authority that is authorised to execute on behalf of the Body Corporate pursuant to Section 12A of the Acquisition of Land Act 1967 and Section 51 or 51A of the Body Corporate and Community Management Act 1997. The name of the Authorised Officer must be completed in the 'Signer Name' field, and the name of the Constructing Authority e.g. 'Department of Transport and Main Roads' must be entered into the 'Entity' section – Refer to Part [45-2068] of the Land Title Practice Manual.

The Contribution Schedule Lot Entitlements (CSLE) for the scheme are not equal. As required by s48 of the Body Corporate and Community Management Act 1997, the CSLE for the scheme have been allocated having regard to:

- (i) The structure of the scheme;
- (ii) The nature, features and characteristics of the lots in the scheme; and
- (iii) The purpose for which the lots are used.

On the basis of these factors it is just and equitable for there to be a variation in the CSLE for the Scheme. Each lot starts with an entitlement of 500 and additional entitlements are added to recognise the above factors. Consequently, the CSLE for each Lot varies between a minimum of 540 and a maximum of 900. The relative difference in lot entitlements recognises that the factors stated above do not impact on how much each lot should contribute to certain Body Corporate costs such as secretarial fees, audit fees, printing postage and outlays, but the structure of the scheme and the features and characteristics of the lots result in a different burden on the costs of the Body Corporate for repair and maintenance of the common property.

When allocating the lot entitlements to be included in the CSLE, each of the above factors stated above impacts on the allocation in the following ways:

1. Structure of the Scheme

The Scheme is not part of a Layered scheme and does not have mixed use lot, therefore the structure of the scheme does not affect the CSLE.

Different lots in the scheme utilise common property to a greater extent depending upon their location in the scheme. For example some lots do not have access to or, because of their location, do not use the lifts as much as other lots.

2. Nature, Feature and Characteristics of the Lots in the Scheme

The Body Corporate is part of a Building Format Plan and is responsible for the repair and maintenance of common property within the scheme. This includes the recreation facilities, foyers, lifts and external walls and windows, roof, utility infrastructure and utility services and all artwork installed in the common property of the

above scheme. In allocation the CSLE the following features or characteristics of lots in the scheme increase the burden that the lot places on the Body Corporate expenditure for the maintenance, cleaning and repair of the common property on the following basis:

- (iv) The external surface area of the lot. Additional entitlements are added depending on whether the lot has small, medium, large or extra large surface area.
- (v) The level of the building on which the lot is situated. Additional entitlements are added depending on the level of the building in which the lot is located. The higher the lot in the building, the higher the cost of maintaining, cleaning and repairing windows and external walls, and the higher the cost of maintaining and operating the lifts.
- (vi) Gross Floor Area of the lot. Additional entitlements are added depending on the size of the lot. The larger the lot the greater the demand on the central air conditioning.

3. The Purpose for which the Lots are Used

The majority of lots in the scheme are used for residential purposes and consequently this factor does not contribute to any differences in the lot entitlements.

SCHEDULE B EXPLANATION OF THE DEVELOPMENT OF SCHEME LAND

The Scheme is a basic scheme and is not a subsidiary scheme.

The Scheme will not be further developed.

- (j) the Body Corporate must, from time to time, determine the amount of security deposit to be paid by each Owner or Occupier whose Lot is connected for the supply of the reticulated utility as a guarantee against non-payment of accounts or money under paragraph.

43 Recovery of costs

- 43.1 An Owner or Occupier may be required to pay the Body Corporate's costs and expenses incurred in connection with:
- (a) recovering levies or other money payable to the Body Corporate pursuant to the Act duly levied upon the relevant Owner or Occupier by the Body Corporate or otherwise pursuant to these By-laws;
 - (b) all legal or other proceedings concluded in favour of the Body Corporate taken by or against the relevant Owner or Occupier;
 - (c) any damage to the Common Property or personal property vested in the Body Corporate which is caused or contributed to by the relevant Owner or Occupier or the Owner or Occupier's invitees;
 - (d) any damage caused by a breach of the Act or of these By-laws by any Owner or Occupier or the Owner or Occupier's invitees.
- 43.2 The amount of any such costs will be deemed to be liquidated debt due by the Owner or Occupier to the Body Corporate.
- 43.3 If an Owner or Occupier fails to pay the costs and expenses incurred, the Body Corporate may:
- (a) take action for the recovery of those costs; and/or
 - (b) enter such costs and expenses against the levy account with respect to the relevant Lot.
- 43.4 If a contribution levied pursuant to the Act is unpaid 30 days after it falls due for payment, then the amount of the unpaid contribution will bear interest at an annual rate to be determined by the Body Corporate from time to time. If no such resolution has been made, then at a rate of 2% per month or any part thereof.
- 43.5 In this By-law, references to an Owner or Occupier will include a reference to a mortgagee in possession of an Owner or Occupier's Lot.

44 Letter boxes

- 44.1 An Owner or Occupier must ensure that his letter box (if one is provided) is regularly cleared and any unwanted material properly disposed of.

45 Foyer access

- 45.1 Foyer access is for pedestrians only. All bicycles and the like, whether escorted or mounted, must only enter the building via the carpark vehicular access. No electrical appliances or furniture are to be brought through or stored in the foyer at any time.

46 Smoking

- 46.1 An owner must not smoke or permit any Owner, Occupier or Invitees to smoke in the following areas:
- (a) On common property whether that area is enclosed, partially or substantially enclosed or an open area;
 - (b) Within four metres of any entrance or open window of an area of the common property;
 - (c) Smoking is only permitted within the enclosed confines or area of a Lot and not on balconies associated with the lot, or common property;
 - (d) The owner, occupier or invitee must take reasonable steps to ensure that smoke drift does not cause nuisance or hazard to persons in neighbouring lots or common property.

47 Behaviour of Owners, Occupiers and invitees

- 47.1 An Owner, Occupier or invitee of a Lot when on Common Property must be adequately clothed and must not use language or behaviour in a manner likely to cause offence or embarrassment to the Owner, Occupier or invitee of another Lot or to any person lawfully using Common Property.

48 Charging Electric Vehicles and Personal Electronic Transport Devices

48.1 General Prohibition and Consent Requirement

Unless prior written consent of the Body Corporate is obtained, Owners and Occupiers are not permitted to:

- (a) use power points in common areas or in the basement car park for the charging of:
 - (i) electric vehicles (EVs); or
 - (ii) personal electric transport devices, including but not limited to electric scooters, electric bicycles, electric wheelchairs, and electric mobility devices; or
- (b) install EV or personal electric transport device charging points in their residential car park space.

48.2 Definitions

For the purposes of this by-law:

- (a) "Electric vehicle (EV)" means all types of vehicles powered by electricity rather than combustible fuels, including but not limited to electric cars, electric motorcycles, electric scooters, electric bicycles, electric skateboards, electric hoverboards, and similar forms of transport.
- (b) "Personal electric transport device" includes smaller electric-powered devices primarily used for personal or mobility purposes, such as electric scooters, e-bikes, electric wheelchairs, mobility scooters, and similar electric mobility aids or convenience devices.
- (c) Where an existing power point is found to be used for charging an electric vehicle or personal electric transport device without the written consent of the Body Corporate, the Body Corporate may disconnect power to this point without notice.

48.3 Application for Charger Installation

Owners wishing to install a charger in their car park (whether for an EV or a personal electric transport device) must apply in writing to the Body Corporate for approval. Conditions associated with the granting of approval may include, but are not limited to:

- (a) Installation of a Body Corporate–approved power point that utilises cloud-based load management, including necessary wiring to an electrical distribution board, an isolator, and usage monitoring via the Body Corporate–approved charger (Wi-Fi). Charging will be managed on a trickle-charge basis only.
- (b) All charger installations must be carried out using the Body Corporate’s registered electrical contractor and must comply with Australian Standards and the requirements of the relevant supply authority.
- (c) The charger must be managed through the Body Corporate–approved cloud-based load management system. As a result, electricity supply will not be continuously available and charging will be managed based on building and vehicle/device demand.
- (d) The Owner must enter into a supply agreement with the Skyline Body Corporate’s embedded network for electricity consumption, including a \$0.10/kWh tariff to cover insurance and infrastructure costs, via the Body Corporate–approved app.
- (e) If no fixed mounting point is available within a car park space, the Owner must install a galvanised metal post fixed to the floor and ceiling at the boundary of their car park space. The charger and associated wiring must be affixed to this post.
- (f) The Body Corporate will not be liable to any Owner or Occupier:
 - (i) for any work undertaken by the Body Corporate–approved electrician;
 - (ii) if the charger fails or is not operational at any time;
 - (iii) if the electricity supply to the building is unavailable or fails due to natural causes, human error, or overload.
- (g) If an Owner or Occupier fails to comply with this by-law, they will be liable for any costs associated with the repair or replacement of the building transformer, or for any damage caused (including blown electrical fuses). These costs may be recovered from the Owner of the Lot as a liquidated debt.
- (h) Owners wishing to install a charger must submit a plan with their application, showing:
 - (i) the Exclusive Use number of the car park space,
 - (ii) the proposed location of the charger,
 - (iii) the proposed location of any required mounting post.

48.4 Transfer of Ownership

Upon a change of Lot ownership:

- (a) The charger (whether for an EV or personal electric transport device) will be considered part of the lot infrastructure and must not be removed by the departing Owner.
- (b) If the new Owner makes use of the charger, they will be taken to have agreed to the same usage conditions that applied to the previous Owner.

49 Restrictions on Building Works – Jackhammering and Tile Cutting

49.1 Unless the prior written consent of the Body Corporate is obtained, Owners and Occupiers are not permitted to carry out, or allow to be carried out, any jackhammering or tile cutting except during the following permitted hours:

- (a) **Monday to Friday**, between **8:00am and 4:00pm**;

- (b) **Not permitted on Saturdays, Sundays, or Public Holidays.**

49.2 For the purpose of this by-law:

- (a) **"jackhammering"** includes the use of any powered tool or equipment that breaks up concrete, stone, tiles or similar materials through high-impact force or vibration.
- (b) **"tile cutting"** includes the use of any tool or machine that cuts tiles, whether manual or powered, including wet saws, angle grinders, or similar equipment.
- (c) **"Grinding"** includes the use of any powered grinding tool or machinery, including angle grinders or floor grinders, that abrades or smooths hard surfaces such as concrete, stone, or tiles and produces significant noise or vibration.

49.3 The above restrictions apply to all works carried out within a Lot or on Common Property, whether undertaken by the Owner, an Occupier, or their contractors or representatives.

49.4 The Body Corporate may:

- (a) direct that any jackhammering or tile cutting in breach of this by-law cease immediately;
- (b) recover any reasonable costs incurred by the Body Corporate in relation to a breach of this by-law from the Owner of the relevant Lot as a liquidated debt;
- (c) issue notices or take further action under applicable strata legislation.

49.5 This by-law is intended to preserve the amenity and quiet enjoyment of the property for all residents.

50 Prohibition of Locked Boxes on Common Property

50.1 Owners and Occupiers are **not permitted to install, place, attach, or leave any lock-box, key safe, key storage device, or similar item** anywhere on Common Property, including but not limited to:

- (a) fences, gates, handrails, balustrades, or walls;
- (b) fire hose reels, fire hose reel cupboards, electrical cabinets, or any building services infrastructure;
- (c) doors or door handles to building entrances or stairwells;
- (d) any part of the building visible from outside or accessible to the public.

50.2 For the purposes of this by-law, "lock-box" means any device used to store and provide access to keys, fobs, or access cards, whether mechanical, combination, electronic or otherwise.

50.3 Any lock-box found on the Common Property in breach of this by-law may be:

- (a) removed without notice by the Body Corporate; and
- (b) disposed of if not collected within a reasonable period, at the Owner's or Occupier's cost.

50.4 The Body Corporate accepts no responsibility for the security, safekeeping or condition of any lock-box or contents that are removed under this by-law.

50.5 This by-law is intended to maintain the aesthetic appearance, safety, and security of the Common Property and the building generally.
